Good evening,

Please provide me this information by 1200 EDT on Friday. Thanks.

Dave

For those folks that are supporting the Gold King Mine blowout response:

(Gary, Greg, Brian & Tom) Please send information to Dave Mickunas tomorrow, Friday 08/21; and Raj Singhvi on the following days.

The area in red below highlights the depth of the report for ERT activity. Brevity!

Each day by NLT 3:00 PM EST, ERT should email a description of our daily support activities in the field and/or from locations remote to the response. The email should be sent to the following addresses:

TO line: EOC\_Situation\_Unit@epa.gov; EOC\_Planning@epa.gov

CC line: EOC\_Manager@epa.gov; Eoc.Epahq@epa.gov

I (we) am asking the phone duty officers to carry out this role since we know that each will be at his/her duty station for an entire week. Please note that the Regions feed information into the EoC in a manner similar to what I've described above (actually, the Regions provide much detail). I think it's important for our staff to see that their great work is being recognized and acknowledged as they are doing it. Note, this is not usually an issue for the routine ERs where ERT is activated—we are more often identified as providing support to

the effort.

So...Dave M., you only need to do this Friday 08/21, Raj will take over for this upcoming week starting Saturday (08/22).
